National Wildlife Refuge

Cross Creeks National Wildlife Refuge is one of over 500 national wildlife refuges. The primary objective of a national wildlife refuge is to provide habitat for the conservation of all species of fish and wildlife. Sport fishing is permitted at a level compatible with the environment, providing recreational opportunities and permitting the use of a renewable resource.

The regulations listed supplement the general regulations governing fishing on a national wildlife refuge as set forth in Title 50, Code of Federal Regulations, Part 33. Sport fishing will be in accordance with applicable state regulations, subject to the following special regulations.
